**What was your favorite part of studying at INTO City, University of London?**

"I attended all my classes and gained valuable knowledge from teachers at INTO City. The teaching was so great, I didn't want to miss anything. The teachers were very supportive, helpful and charismatic. Even online learning didn't lack support and organization – the explanations were clear, and you could see how invested our teachers were in our education. "

***“My experience was great! I graduated with one of the best results in my course.”***

**What was the best thing about the International Foundation?**

"I enjoyed my course fully so it's hard to choose one best thing! I enjoyed the business, economics and accounting modules the most. I was always excited about the topics covered and the assignments we had. Our teachers delivered classes in such an enjoyable and easy-going way – I always felt confident and secure in asking questions and giving answers. And among the students, there was a friendly, supportive and accepting atmosphere where everyone did their best to help you understand."
