What did you enjoy most about the International Foundation?

“There were many impressive things, from outdoor activities provided by the Center to clubs at the university. For me, the most enjoyable factors were the facilities and the learning environment. The classes were totally different from my previous experiences. I had the chance to study in a very modern learning environment, using technology to help students improve their performance and results.”

“I’ve always dreamed of being a businessman. Studying at City will get me closer to my dream.”

How was your experience of the university application process?

“At INTO, I was provided with everything to prepare and apply for a degree at City, University of London. I got support from INTO during the university application process and with my academic knowledge. I became more confident and concentrated completely on my studies to progress to my dream school – Bayes Business School. It’s one of the best business schools in the UK and is famous for student satisfaction. I believe it’s the best environment for me to learn and develop my knowledge.”
